I'm an all-around tinkerer and passionate knowledge devourer from Spain with a very uneasy mind for projects. I can't help myself, I'm always at something, and I solemnly swear I'm up to no good, like this website. If you like what you see here don't hesitate to contact me, I love coffee.

Experience

Project DGTIC Generalitat Valenciana *Remote L2 IT Technician - 2021-Current*

- Remote L2 IT Incidents Technician

Marktel *L1 IT helpdesk, Xirivella - 2017-2020*

- Network provider L1 technician
- Diagnosis and remote repair of network problems

Skills

Office skills

Team and solo player at the same level, love to laugh, and a bit of a coffee snob. Used to follow the ITIL 4 foundation protocols.

Computer skills

There's a lot I can do, and If there's something I can't do I'm always eager to learn. But for now let's say I use proxmox for my servers due to its flexibility, LXC containers, Proxmox VMs, as well as docker containers. This all means I'm comfortable with Windows/Linux environments, remote support tools, ticketing tools such as Jira, documenting tools like Confluence, and network troubleshooting.

Hobbies

Gaming, Tinkering, Camping, Spending time with my dog, Grabbing a beer with my friends and family
